COLLABORATE

Online Conferencing Service

ALWAYS BE PRESENT

Have you ever been expected at a meeting while you're stuck in traffic? Have you ever needed to conduct an impromptu brainstorming session, when most of your team is working in separate locations? Enable your team's full collaborative potential by bridging these geographical divides with Momentum Collaborate.

With Momentum Collaborate, no matter where your people are, they'll always be present.

DYNAMIC MEETING OPTIONS:

- Momentum Collaborate enables you to concentrate on the substance of your meeting or webinar, not the technology.
- Need real-time collaboration? Hold an on-demand conference and take advantage of application and desktop sharing.
- Hosting a high-profile webinar? Schedule a conference with invitations, registration pages and more.
- Want to leverage recorded content? Use the embeddable media player, automated podcasting and built-in social media promotion tools.

SIMPLIFIED ACCESS:

Participants can join meetings with ease because there are no complicated downloads or special software requirements. The Adobe® Flash®-based player for participants makes entering a web conference quick and easy.

SUPERIOR PLATFORM AND BROWSER SUPPORT:

Momentum Collaborate offers platform support for Microsoft® Windows®, Mac® and Linux operating systems and superior browser support for Internet Explorer®, Safari® and Firefox®.
