

Deploy secure and compliant Microsoft Teams PSTN calling for GCC High

WHAT'S INCLUDED

Get to know your new GCCH Teams Phone solution

Direct Routing is the only way to add Teams Phone to your Government Community Cloud (GCC) and GCC High environment. That's why you need the right partner to deploy and support your solution.

With Momentum, you get:

- Compliant PSTN access for your GCC High telephone solution
- One integrated solution powered by Microsoft Teams Phone
- Access to a GCC High Provider that can enable compliant audio conferencing
- Integrations with other M365 GCCH applications
- Help navigating licensing requirements for your deployment
- Access to professional services for user management, integrations, and more

HIGHLIGHTS

Stay compliant with government and industry regulations

Use our cloud security enclave designed specifically for DoD contractors

Add compliant audio conferencing provided by a certified GCC High Provider

Get dedicated help with 24/7 high-touch support

Support secure collaboration between internal staff and contractors

What is GCC High?

Microsoft created Government Community Cloud (GCC) and GCC High to enable compliance with federal government information and cybersecurity regulations. While both GCC and GCC High work to protect sensitive information — there are key differences between the two, including:

	GCC	GCC High
Datacenter Locations	Continental US Only	Continental US Only
Eligibility	Federal agencies, SLG, Eligible Contractors (DIB, FFRDC, UARC), & Tribes	Federal Eligible Contractors (DIB, FFRDC, UARC)
FedRAMP	High	High
DFARS 252.204-7012	Yes	Yes
FCI + CMMC L1	Yes	Yes
CUI/CDI + CMMC L2-3	Yes	Yes
DoD CC SRG Level	IL2 PA	IL4
NIST SP 800-53/171	Yes	Yes
ITAR/EAR	No	Yes
CJIS Agreement	State	Federal
NERC/FERC	Yes	Yes
Support	Worldwide & Commercial	US-Based Restricted Personnel Only
Directory	Azure Commercial	Azure Government

HOW IT WORKS

Deploy fast with an experienced partner

1 Implementation

It all starts with mapping out your needs, users, technology landscape, and other factors impacting your Teams Phone solution.

2 Adoption

Our engineering team designs and configures your solution following Microsoft's encryption and regulatory requirements for GCC High.

3 Support

You get access to 24/7 priority support, 99.99% uptime guarantee, and an ultra-reliable, geo-redundant global network.

Make the switch to a GCCH-compliant Teams Phone solution today

Maximize your investment in M365 by switching to a fully-managed GCCH Teams Phone solution.
